## **DETAILED ACTION**

### ***Priority***

1. This application filed under former 37 CFR 1.60 lacks the necessary reference to the prior application. The current status of all nonprovisional parent applications referenced should be included.

### ***Claim Objections***

2. Claims 19 and 31 are objected to because of the following informalities: In the phrase "or the both" the definite article is superfluous. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 20 and 23-34 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Du Pont de Nemours JP-088-41288, with Shinohara et al. 5,866,671 serving as its English translation.

4. Shinohara et al. disclose polyacetal in claim 1, allantoin in claims 3-6, hindered phenol antioxidant in claim 7, polyamide in claim 10 and molded articles in claim 12.

The formaldehyde emission rate is inherent in the composition. As far as claim 3 is concerned, it claims molded articles. The intended use is immaterial. In the alternative, it would have been obvious to one having ordinary skill in the art, at the time the invention was made, to select allantoin and polyamide from a list of equivalents and to use the moldings of claim 12 of Shinohara et al. for the purposes specified in claim 34 of

Art Unit: 1714

the instant application, since they are manufactured by the same processes from the same composition.

***Allowable Subject Matter***

5. Claims 21 and 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Szekely whose telephone number is (571) 272-1124. The examiner can normally be reached on 7:00 a.m.-5:30 p.m. Tuesday-Friday.
